

ELTUN-1

The Thomas & Betts range of Emergency Test Timers provide a cost effective way to comply with AS2293.2 1998 testing requirements for building installations. Constructed with a tough polyester box enclosure and designed for easy installation into electrical distribution boxes or as a stand-alone unit.

Features

- High quality electronic timer – suitable for either 120min commissioning test, or 90 minute standard discharge testing
- Controls up to 4 circuits
- Active indication
- Automatically reverts to the normal state at conclusion of a discharge test or can be manually re-set
